Re	:	Updated Preventive Measures against the Omicron Variant
Date	:	12 th February, 2022
Circular No	:	WDM011/22

Dear Parents,

During the past weeks we have seen a tremendous increase in Covid-19 Omicron cases. As the virus continues to spread throughout our communities, we have seen the serious health impact particularly on children and the elderly who are not widely vaccinated. We are also deeply concerned about our health care system, which is on the borderline of maximizing its service capacity as the government has announced.

In view of the severity of the situation and for the safety reasons, we would like to **suspend all the Centre based one to one therapy and individual training for these coming two weeks from 14/2 to 25/2**. Nevertheless, we will continue to support our children and their families through providing Zoom intervention/home programme for our children and/or online parent consultation.

We greatly appreciate parents' understanding of the above measure, which will only be temporary. We will review the situation in two weeks from now and keep you apprised of the arrangement regarding our service provision. In the meantime, let us all work together to combat this infectious situation by playing our role to minimize social contacts to cease the transmission chain and its associated clusters.

We appreciate your cooperation in this matter to ensure you, your children and everyone at Watchdog are keeping well and healthy!

Should you have any questions, please do not hesitate to call *Ms Ophelia, our Social worker (Hong Kong Centre) at 25217364 or Ms Viola, Centre in-charge (Jordan Centre) at 23779666 or Ms. Clara, Project Coordinator (OPRS Lai Chi Kok Centre) at 25230006.*

Best regards,

Stella Wong
Executive Director
